EXAMINER'S AMENDMENT

1. This Examiner's amendment is an attachment to the notice of allowability, paper no. 11.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
3. Authorization for this examiner's amendment was given in a telephone interview with Cynthia CASBY, registration no. 47,475 on or around 28 February 2002.

The application has been amended as follows:

In the claims, please cancel claims 44-72.

This amendment was made in response to a telephonic restriction requirement. See Examiner's Comment.

Application/Control Number: 09/458,849

Art Unit: 2176

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey ROSSI whose telephone number is (703) 308-5213 (*Normally reachable 0830-1700 M-F*); or the examiner's supervisor, Heather HERNDON, 703-308-5186.

EXAMINER'S COMMENT

4. The following comment has been included to clarify the record regarding Applicant's canceling of newly presented claims 22-72.

5. Newly submitted claim 44-72 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: originally presented claims are directed to a system including a frame device resembling a printed photo frame connected to a network. New claims 44-72 are directed to modifying digital photo data to conform to frame constraints in an image network (*e.g.*, claim 44); and specific details of a configuration of a frame device (*e.g.*, claim 56); and details of interacting with a data repository (*e.g.*, claim 62). The search for these features would generally be recognized as different search than the search for the originally presented invention, since the former is in the context of an electronic picture frame, and the new claims are directed to a frame device in general. The search for the latter was not fully encompassed in the search performed and updated for the former. These inventions are related as sub-combinations usable together.

Application/Control Number: 09/458,849

Art Unit: 2176

Applicant has agreed via telephone to cancel claims 44-72, therefore, this has been done without prejudice to Applicant's ability to re-file these claims in a divisional application.

Application/Control Number: 09/458,849

Art Unit: 2176
